About Me

Aspiring Software Development Engineer with experience building scalable full-stack applications and RESTful APIs using Java, Node.js, and React, along with hands-on expertise in AWS and real-time systems. Strong focus on performance, system design, and leveraging machine learning to develop intelligent applications.

Education

MIT Academy of Engineering, Pune <i>B.Tech. in Computer Engineering</i>	Aug 2022 – Jun 2026 CGPA: 8.85 / 10
St. Joseph's Convent Sr. Sec. School, Jalgaon <i>CBSE 12th Grade</i>	2021 – 2022 80%

Skills

Languages: Java, JavaScript, SQL

Technologies & Tools: Node.js, Express.js, React.js, AWS (EC2, S3, VPC, RDS, SQS, Lambda, ELB, DevOps/CI-CD), cPanel Hosting

Work Experience

Core-Decimal Solution, Mumbai (Remote from Pune) <i>Full Stack Intern</i>	Feb 2025 – Aug 2025
---	----------------------------

- Designed and developed **RESTful APIs** using **Node.js** and **Express.js** to support backend functionality and improve system efficiency.
- Collaborated with another project team to implement frontend features using **React.js**.
- Technologies:** Node.js, Express.js, React.js, Vue.js, MySQL, RESTful APIs, Postman, Git

Project Work

- AcadHost – Student Cloud Hosting Platform:** Engineered a full-stack cloud platform for deploying student applications on college infrastructure with authentication and resource management. Built scalable REST APIs and implemented deployment orchestration (container lifecycle, monitoring, server/Nginx). Integrated GitHub webhooks for CI/CD and developed an admin dashboard for managing users and deployments.
Key Skills: Node.js, Express.js, React.js, REST APIs, SQL, Docker, Nginx, GitHub Webhooks, CI/CD.
- GroceryBid Platform:** Designed and built a full-stack grocery bidding platform with an admin-managed product catalog and vendor quotation system for efficient price comparison. Implemented real-time chat using Socket.IO and developed scalable REST APIs; deployed on AWS ensuring scalable backend operations.
Key Skills: Node.js, Express.js, React.js, Socket.IO, REST APIs, AWS, JavaScript
- Dryme – Laundry Service Platform (Website):** Connects local vendors with nearby users, featuring real-time OTP verification, order tracking, and service listings. Designed RESTful APIs, deployed on Microsoft Azure Virtual Machines, and led a team to present the project at the **Microsoft TechSaksham Regional Showcase 2025**.
Key Skills: Node.js, Express.js, React.js, REST APIs, SQL, JavaScript, Microsoft Azure, Team Leadership

Publications

- Deep Learning–Based Real-Time Stampede Detection System**, IEEE PuneCon, 2025. Indexed in IEEE Xplore, Feb 2026.

Certificates

- AWS Cloud Virtual Internship | MERN Stack Application Development – TechSaksham | NPTEL Certification – Cloud Computing**

Extra-Curricular Activities

- Event Planner – Knowledge Network Club:** Managed logistics for workshops, tech talks, and student initiatives.
- Conducted a **C Language Bootcamps** for 300+ first-year students, covering programming fundamentals and hands-on practice..
- Coordinated an **Alumni Guest Session** for 100+ students on placement preparation and industry expectations.
